EXPERIENCE

MERN Stack Developer

2022 – Present

Freelance — Fiverr & direct clients · Remote

- Built and delivered responsive React and Next.js applications from scoped requirements through deployment.
- Communicated progress with regular updates; iterated quickly on feedback for UI, performance, and usability.
- Deployed client projects to Netlify and Vercel with production-ready builds and clear handoff documentation.

Full-Stack Developer

2023 – Present

Independent product development · Remote

- Designed, built, and shipped production Next.js apps including DebiasDaily, BloomMind Tracker, NexCartis, ChronoBloom, and Boostlly.
- Owned end-to-end delivery: component architecture, API integration patterns, and CI-friendly static deployments.
- Maintained portfolio and project documentation at sravanpolu.me for recruiters and hiring managers.
