SUMMARY

Frontend / full-stack developer building production web apps with React, Next.js and TypeScript — from UI through APIs to deployment on Vercel and Netlify. Ships and maintains independent products, including one live production app (DebiasDaily) and a full-stack MERN e-commerce build, alongside freelance client work. Growing DevOps skill area through hands-on CI/CD and cloud infrastructure labs.

SKILLS

Frontend

React, Next.js, TypeScript, JavaScript, Tailwind CSS, Framer Motion, React Native (AirSense), Expo / EAS

Databases

MongoDB (sessions, transactions, unique constraints)

Backend & APIs

Node.js, Express.js, REST APIs, MongoDB, JWT Authentication

Cloud & DevOps

Git, GitHub Actions (CI on this portfolio), Vercel, Netlify, Docker (learning), AWS / Terraform / Jenkins (hands-on labs)

EXPERIENCE

Frontend / Full-Stack Developer

2022 – Present

Freelance — Fiverr & direct clients · Remote

- Built and deployed responsive React/Next.js applications across client and independent projects, including dashboards, landing pages and application workflows.
- Owned delivery end-to-end: requirements scoping, implementation, deployment to Netlify/Vercel, and handoff documentation.
- Iterated on client feedback across UI, performance and accessibility with regular progress updates.

Full-Stack Developer

2023 – Present

Independent product development · Remote

- Designed, built and shipped DebiasDaily — a live production Next.js/TypeScript product with an 83-bias curriculum, quiz/review flows, offline PWA support and text-to-speech.
- Built SKR E-Commerce end-to-end (MERN) with authentication and retry-safe, idempotent order processing; built a five-role school management demo with branch-scoped access.
- Also built AirSense (React Native/Expo): multi-provider environmental data with fallback, provenance labelling and a recommendation engine.
- Maintains this portfolio with automated tests, GitHub Actions CI, prerendered SEO and accessibility tooling.

SELECTED PROJECTS

SKR E-Commerce

skr-e-commerce.netlify.app/

Full-stack MERN e-commerce (React/TS + Node/Express + MongoDB) with retry-safe order processing: idempotency keys, payload hashing and DB unique constraints prevent duplicate orders.

React · TypeScript · Node.js · Express · MongoDB

DebiasDaily

PRODUCTION

debiasdaily.com/

Live production Next.js + TypeScript app: 83-bias daily curriculum, quiz/review flows, text-to-speech, offline-capable PWA.

Next.js · TypeScript · PWA · Tailwind

Smart Training & School Management

DEMO

smart-training-school-management-de.vercel.app/

Multi-role school SaaS demo (sample data): five role-based dashboards, branch-scoped access, admissions-to-fees workflows.

Next.js · TypeScript · Tailwind CSS
